

# A Workshop on Electronic Reference Searching, L<sup>A</sup>T<sub>E</sub>X, and English Presentation Skills

In coordination with the MEM Interdisciplinary Graduate Program, we would like to offer students primarily from the departments of Engineering a chance to learn and brush up on their electronic reference searching skills, LaTeX know-how, and English oral presentation skills.

All attendees will be provided with a laptop for use during the workshop, care of the Department of Mathematical and Information Sciences, up to a maximum of 27 laptops in total. As such, although drop-in attendance is welcome, we strongly urge all those interested to contact Dr. Guest by the end of June to reserve a laptop for the day.

## Schedule:

Date: Thursday, July 8th, 2010

Time: 13:00-16:10 + 1 hour after for open discussion

Location: Building No. 8, Room 618

13:00-13:45 Electronic Reference Databases

14:00-15:00 Introduction to L<sup>A</sup>T<sub>E</sub>X

15:15-16:10 English Presentation Tutorial

## Contact Information:

Dr. Martin Guest, Department of Mathematical & Information Sciences
